

ADVANCING VETERANS' INTERESTS

MITRE shares in the VA's mission to deliver unparalleled healthcare solutions to improve the lives of our nation's heroes, their families, caregivers, and survivors.

Our Work, VA Success

As a trusted partner to the United States Department of Veterans Affairs (VA), MITRE's VA Health Systems and Transformation Division provides unbiased, high-quality support to advance Veterans' interests. Through MITRE's Center for Enterprise Modernization (CEM) Federally Funded Research and Development Center (FFRDC), we help VA achieve its strategic and business enterprise modernization goals.

We apply our expertise in healthcare, systems engineering, and policy to create innovative solutions that are tailored to address the unique challenges faced by our nation's Veterans. We leverage our extensive research capabilities to help VA stay abreast of the latest developments in technology and use lessons learned from our cross-government programs to inform our strategies and initiatives, and to solve mission critical challenges.

MITRE's VA Health Systems and Transformation Division has more than 20 years experience advancing Veterans' interests by providing VA with high-quality research, systems engineering, healthcare operations, and analytical support.

Advancing VA'S Strategic Priorities

MITRE is committed to supporting VA by advancing:

- Access to healthcare
- VA's reach across and access to other federal agencies
- Implementation of VA-related legislation and Executive Orders
- Workforce access and equity
- Evidence-based decision making
- Patient safety and health records
- Mission critical priorities

FFRDCs: MITRE's Unique Vantage Point

MITRE's VA Health Systems and Transformation Division's unique vantage point across government has its roots in not-for-profit FFRDCs. Through the MITRE CEM FFRDC and public-private partnerships, we work to tackle challenges to the safety, stability, and well-being of our nation.

- We work with sponsors to solve mission critical problems and to provide technical expertise and unbiased advice.
- We serve as a trusted adviser, delivering results that are in the public interest.
- We strategically partner with sponsors to identify outcomes and shape/execute work to best achieve them.
- We maintain objectivity by not competing for work that can be completed by traditional government contractors.
- We spur innovation by harnessing the capacities of the non-profit sector, academia, and the for-profit sector.
- We enable industry to work more effectively with government by making sponsor-developed technology available for production and distribution.

Call MITRE When You Need

- Support solving big, complex problems
- Experts to help with policy and strategy development
- To convene government and industry stakeholders or establish public to private partnerships
- To understand best practices from across government
